- Cross-document insights
- Context-aware understanding
- Document comparison

DOCUMENT INGESTION

Capture and prepare documents for AI

- Import from folders, email, and cloud
- Bulk upload large volumes
- Auto-classify by content
- Extract key metadata
- Support PDFs, Office files, and images
- Prepare for AI processing

MANAGE & SECURE

ENTERPRISE DATA MANAGEMENT

Organise and manage documents at scale

- Centralised repository
- Version control and audit trails
- Metadata and tagging
- Document categorisation
- Collections and grouping
- Secure sharing

SECURITY & GOVERNANCE

Protect data with enterprise-grade security

- Role-based access control
- Document-level permissions
- Encryption and secure storage
- Activity tracking and audit logs
- Compliance and governance controls
- Private AI deployment

INTERACT & DECIDE

AI USER EXPERIENCE

Interact with documents naturally

- Chat with documents
- Ask across multiple files
- Instant answers and insights
- Visual dashboards
- Guided AI prompts
- Easy to use

INTELLIGENT INSIGHTS

Turn documents into decisions

- Cross-document insights
- Identify risks and gaps
- Instant executive summaries
- Convert data into dashboards
- Predict trends from history
- Support faster decisions

Unlock the Intelligence in Your Documents
